DETAILED ACTION

1. Claims 1-50 are pending in the application for examination.

Drawings

2. The drawings that include Figures 1 through 7 are objected to because the drawings do not show legends explaining the number shown the drawing. A proposed drawing correction or corrected drawings are required in reply to the Office Action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 20-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 20, the feature of ***“converting signals of a second format to a first format”*** contained in lines 5-6 of the recited claim is vague and indefinite, because ***there is no indication throughout the recited claim that the “signals of a second format” is first received by any means or at least where came from.*** Due to this

problem, Examiner is unable to make any assumption that enables the Examiner to find appropriate art for rejection.

Allowable Subject Matter

5. Claims 1-19 and 29-50 are allowed.
6. Claims 20-28 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following patents are cited to further show the state of the art in general:
